Memorable Events that Work.

Experienced

Blue Danube Productions brings a wealth of experience and knowledge.

Combined, our team has spent 50 years orchestrating production, design and coordination for every kind of event imaginable. We've worked with a wide variety of clients creating unique gatherings that get noticed and remembered— from down-to-earth employee meetings to sparkling galas.

Creative

At Blue Danube, We tickle the imagination and leave your guests thirsty for more. We approach each client individually, getting to know your goals, understand your challenges and envision the event you desire. We then go to work joining together lights, sound, cameras, computers, staging, décor and more to tell your story in a memorable fashion that works. And while each event

is unique, our focus is always on making certain your event flows with ease, shimmers with style, and your message comes through clean and clear.

Refreshing

The team at Blue Danube serves as a bridge, connecting client's needs with vendor's capabilities.

Our vendor partnerships ensure the best fit while providing limitless opportunities for your event to shine. You can relax because we know the industry, we know the venues and we know what can and cannot be done, fixed, changed or negotiated. Perhaps most importantly, we know what can go wrong and we plan every detail to ensure flawless execution. In short, we won't leave you all wet.
